## CEO's Message

Assalamu Alaikum wa Rahmatullahi wa Barakatuh,

Health is a precious gift from Allah (SWT), and access to quality medical care is a fundamental right for all. Unfortunately, many in our community are unable to afford the healthcare they need. As a medical center committed to serving the underprivileged, we strive to provide essential health services, including lab diagnostics, outpatient care, dental services, diabetes management and eye care.

PMC has grown over the years and currently serves over 600,000 patients annually. The rise in the number of patients we treat is a testament to the trust our community places in us and to the growing need for accessible healthcare services in the region. However, we cannot continue this vital work without your help.

Your Zakat contribution to PMC will go a long way in supporting Hundreds of thousand underserved individuals who rely on us for their healthcare needs. By supporting our cause, you will not only change lives but also strengthen the fabric of our community.

We warmly invite you to visit us and witness firsthand the impact your support can have on the lives of the people we serve. We are confident that your visit will strengthen your belief in the transformative power of giving and the difference it makes in the lives of those who need it most.

Together, we can make healthcare accessible and affordable for everyone. Your Zakat will not only help alleviate suffering but also bring hope and healing to many lives. We humbly request you to consider making your Zakat contribution to Pak Medical Centre, as your generosity will help us continue to serve the most vulnerable in our community. Your support will be instrumental in sustaining our operations and extending our reach, ensuring that more lives are touched, more families are supported, and more health challenges are overcome.

May Allah (SWT) bless you and your family for your generosity and grant you endless rewards in this life and the hereafter.

Sincerely,

Muhammad Akbar  
CEO, Pak Medical Centre

## Advanced Laboratory Solutions

PMC Laboratory has been established to provide precise and reliable disease diagnosis using state-of-the-art technology that adheres to the highest standards of diagnostic accuracy. Our skilled laboratory technologists, under the expert supervision of experienced pathologists, ensure that every result meets the highest quality standards.

We process all samples in an ISO-certified environment, strictly following international laboratory protocols, and utilize automated technologies to minimize human errors. Despite the increasing costs associated with maintaining high-quality services, PMC Laboratory is proud to offer affordable rates to the community, reflecting our commitment as a non-profit organization. Our pricing and infrastructure are competitive with the best healthcare providers in the industry.

We actively participate in global external quality assurance programs, including Bio-Rad, EQAS, and RIQAS, which further demonstrate our dedication to maintaining international standards of diagnostic excellence. Visit us for unmatched reliability, accuracy, and a steadfast commitment to excellence in healthcare diagnostics.

## Accurate Testing, Trusted Results

### Departments

Hematology

Routine Chemistry

Culture and Sensitivity

COVID-19

Microbiology

Special Chemistry

Molecular Biology (PCR)

PMC Laboratory is equipped with the latest technology, sourced from world-renowned companies such as Roche and Abbott. We invite you to visit our laboratory and experience firsthand the high-quality healthcare services that we offer.

# Comprehensive Diagnostic Care

**CT Scan**

At PMC , we are committed to offering a wide range of diagnostic services with an emphasis on precision, efficiency, and patient comfort. We provide cutting-edge diagnostic services through our skilled team and advanced equipment, including: X-rays, CT Scans, Ultrasound, Endoscopy & Fibroscan. CT Scans deliver detailed cross-sectional images, assisting in the diagnosis of various conditions and injuries. Ultrasound provides non-invasive imaging of internal organs and structures, essential for diagnosing issues such as pregnancy complications, tumors, and gallstones. Endoscopy allows for the direct visualization of the digestive tract, helping detect gastrointestinal disorders such as ulcers, polyps, and cancers. Additionally, we offer Fibroscan services, an advanced technology that evaluates liver health and detects liver fibrosis and cirrhosis. PMC Laboratory remains committed to providing high-quality, efficient diagnostic services, ensuring that your healthcare needs are met with professionalism and care. Visit us today to experience diagnostic excellence.

## Bringing Healthcare To Communities

Throughout the year, PMC has proudly continued its mission of providing essential healthcare services to those in need. In addition to our daily efforts to offer free healthcare to deserving individuals, we organized 61 Free Medical Camps, benefiting a total of 15,924 people. These specialized camps were held both indoors and outdoors, reaching factory workers and members of the surrounding communities. The services provided at these camps included free eye surgeries, hepatitis screenings, lab testing, dental checkups, diabetes assessments, nutritional and dietetic consultations, as well as care for various general health concerns. We remain committed to improving the health and well-being of those who need it most.
